To whom it may concern,

This letter is provided to certify that all products sold by S. Bravo Systems, Inc. (Bravo) are made here in the United States of America. Since our company's incorporation here in 1987, all Bravo containment sumps, components, replacement parts and accessories have been manufactured or assembled at our primary factory in the City of Commerce, California. Raw materials are sourced from companies that primarily operate in the USA with the majority of all materials sourced locally in southern California. Currently, the Bravo supply chain consists of over 90% raw materials, with all design, engineering, R&D, prototyping, labor, fabrication and /or assembly occurring domestically within our factory.

We are proud to display the Made in USA™ brand certification mark which is registered with the United States Patent and Trademark Office, signifying our claim that our products are made in the USA of domestically made products, domestic raw materials and domestic labor.

Please feel free to contact me directly with any Made in the USA questions at jsmith@sbravo.com.

Additionally, you may learn more about our company and how we operate at www.sbravo.com.

Sincerely,

A handwritten signature in black ink, appearing to read 'Jonathan E. Smith', is written over a white background.

Jonathan E. Smith
Director of Brand Management
S. Bravo Systems, Inc.
