

Part #: F-8383-F3L-B-EO

The B8000 and B9000 Series Singlewall UDC's are compatible with all common motor fuels. The sump walls are gel coat and paint free, freeing up valuable labor time. The large flat walls make it easier to fit more entry fittings. Options for customized products include factory installed preplumbed FRP entry fittings, electrical offset and stabilizer brackets. The B8000 and B9000 Series Singlewall UDC's can be sized and tailored to any dispenser model and include all installation accessories.

SIZES

B8000 - 20" Wide at Base

B9000 - 29" Wide at Base

MATERIAL

Tank-spec fiberglass

Epoxy coated galvanized steel

Quality FRP material won't deform like polyethylene
