

Part #: **B487x33-42T-TG-SL**

The Tank Sump Tall Collar Singlewall with the octagon shape provides the greatest access to pipe at 45- and 90-degree angles. It features a snap-lock lid with vertical o-ring seals to make it water-tight. It comes with a 30-year corrosion warranty. There is an easy slurry pour channel to join the two-piece containment sump. The base of the tall collar can be applied by the tank manufacturer or saddle cut at the factory to speed up installation.

The Tank Sump Collar Mount Singlewall is constructed from fuel compatible resin that doesn't require gel coat for corrosion resistance. This reduces the time and labor required to install rigid FRP entry fittings.

SIZES

42" or 48" diameter
32" or 36" reducer

MATERIAL

Fiberglass

SPECIFICATIONS:

- 30-year corrosion warranty
- Quality FRP construction
- Available in split configuration
- Split version is height adjustable in the field
- Easy slurry pour joint
- Fuel compatible resin doesn't require gel coat
- Kit includes installation accessories and slurry
