

Part #: B487x33-60T-RB-SL

The Tank Sump Closed Bottom Singlewall with the octagon shape provides the greatest access to pipe at 45- and 90-degree angles. It features a snap-lock lid with vertical o-ring seal to make it water-tight. It comes with a 30-year corrosion warranty. There is an easy slurry pour channel to join the two-piece containment sump. Bravo offers an FRP 4-inch riser adaptor to install into the tank bung.

The Tank Sump Closed Bottom Singlewall is constructed from fuel compatible resin that doesn't require gel coat for corrosion resistance. This reduces the time and labor required to install rigid FRP entry fittings.

SIZES

42" or 48" diameter
32" or 36" reducer

MATERIAL

Fiberglass

SPECIFICATIONS:

- 30-year corrosion warranty
- Quality FRP construction
- Available in split configuration
- Split version is height adjustable in the field
- Easy slurry pour joint
- Fuel compatible resin doesn't require gel coat
- Kit includes installation accessories and slurry
