

Part #: **B481x32-(42T + 18B)-RB-DB-AB**

The Tank Sump Closed Bottom Doublewall VPH with the octagon shape provides the greatest access to pipe at 45- and 90-degree angles. It features a snap-lock lid with vertical o-ring seal to make it water-tight. It comes with a 30-year corrosion warranty. Bravo offers an FRP 4-inch riser adaptor to install into the tank bung.

It ships under a continuous 20" Hg vacuum test. The Tank Sump Closed Bottom Doublewall VPH is constructed from fuel compatible resin that doesn't require gel coat for corrosion resistance. This reduces the time and labor required to install rigid FRP entry fittings.

## SIZES

42" or 48" diameter  
32" or 36" reducer

## MATERIAL

Fiberglass

## SPECIFICATIONS:

- 30-year corrosion warranty
- Quality FRP construction
- Available in split configuration
- AB2481 compliant in California
- Fuel compatible resin doesn't require gel coat
- Kit includes installation accessories and pour channel slurry
