

Part #: MW42R

SIZES

39" and 44"

MATERIAL

Fiberglass cover
Stainless steel handle

SPECIFICATIONS:

- Easy-to-use handle to remove cover
- Exceeds test ratings for EN-124 (EU) and H-25 (US)
- No corrosion with composite material
- Light weight
- Non-skid surface

The Titan Composite Manway Cover far exceeds the load ratings required in forcourt applications. With both H-25 and EN124-C250 ratings it is one of the most durable covers on the market today. It's light weight and custom non-skid surfaces help prevent work place injuries.

Titan replacement covers drop into the existing frame of failed competitive covers. Sizes are available to replace OPW, Emco, Safe lite, & Flex-ing composite covers. The stainless steel handle doubles as a pry point rated at 1100 lbs. pull.
