BRAVO DISPENSER CONVERSION FRAME - MODEL CONV-B2000

This surface mounted dispenser anchorage frame adapts an existing installed under dispenser containment to a new dispenser.

I have examined and reviewed the following items on the Bravo Dispenser Conversion Frame:

1. Bravo catalog sheet with specifications.
2. B2000 Conversion Frame Installation Instructions.

Upon review of the materials and construction it is my opinion and conclusion that sound engineering design and engineering of the product provides an adapter that allows for the replacement of an existing dispenser leaving the existing under dispenser containment in place.
