About the Singlewall Collar-Mount Tank Sumps with No Lids

The Tank Sump Tall Collar Singlewall with the octagon shape provides the greatest access to pipe at 45- and 90-degree angles. It features a snap-lock lid with vertical o-ring seals to make it water-tight. It comes with a 30-year corrosion warranty. There is an easy slurry pour channel to join the two-piece containment sump. The base of the tall collar can be applied by the tank manufacturer or saddle cut at the factory to speed up installation. When used in conjunction with a Bravo fill sump multipoint cover, it can be used as a fill sump.
